## **Papa Gino's and D'Angelo Select ONOSYS to Provide Online Ordering for its 370 Restaurants**

CLEVELAND, OH, March 11, 2008—ONOSYS Online Ordering, a leading provider of remote ordering technologies for pizza, quick-service, and casual sit-down restaurants, announced today that Papa Gino's, Inc. has selected its online ordering solution for its Papa Gino's Pizzeria and D'Angelo Grilled Sandwiches restaurant chains.

With 370 restaurants in the pizza and sandwich categories, Papa Gino's, Inc. recognized the value of offering more convenient ordering options for its patrons. ONOSYS will provide Papa Gino's, Inc. with a secure, PCI compliant web ordering interface which will offer customers a consistently intuitive and fast ordering experience. The ONOSYS platform will integrate directly into Papa Gino's custom Point-of-Sale system to deliver a fully integrated solution.

The ONOSYS online ordering technology provides guests with a quick and simple way to view menu choices and place orders for pickup or delivery. Intelligent technologies incorporated into the ONOSYS design also provide each restaurant with detailed sales and marketing data, enabling individual restaurants to customize each online customer's experience.

"After an extensive review of online ordering solutions, we chose ONOSYS because of the company's dedication to customer service, experience in working with pizza and quick service concepts, and their ability to integrate into our existing POS platform," said Paul Valle, CIO of Papa Gino's, Inc. "We see tremendous benefit to our guests by providing a convenient means of ordering that will enhance their overall experience with Papa Gino's and D'Angelo."

"ONOSYS is quickly becoming a leader in online ordering for restaurant chains and we are proud to be selected as the online ordering partner for Papa Gino's, Inc." said Stan Garber, Senior Sales Manager & Partner of ONOSYS. "Papa Gino's and D'Angelo have a history of providing world-class service and food to its guests, and we see online ordering only enhancing that experience through tools like easy repeat ordering, intelligent up-selling, email marketing, and loyalty programs."
